

QUALITY GUARANTEE

This product is guaranteed against all defects in workmanship and materials for the original owner for one year from the date of purchase. Damage to or failure of the flashlight or any component thereof due to alteration, misuse, battery leakage or lack of maintenance will void any and all guarantees. Damage by leakage of batteries should be taken up with the manufacturer of the battery using their damage claim instructions. For any additional information call 1-800-255-6061.

All copyrighted and copyrightable materials, including, without limitation, the logo, design, text, graphics, pictures, copywriting and the selection and arrangement ("Materials") thereof are ALL RIGHTS RESERVED Copyright © 2020 Alliance Sports Group L.P.

WARNING

AVOID EYE INJURY: Do not stare directly into beam or shine it directly into anyone's face. Doing so for more than a few seconds could cause retinal damage. Do not allow children to use LED lights unless under the supervision of an adult.

CAUTION

Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (NiCad or NiMH) batteries. Do not use rechargeable or reusable alkaline batteries. Dispose of old batteries properly.

NIGHTCOMMANDER

4 COLOR LED **BLOOD TRACKER**

NOTE:

Before use, deactivation of DEMO mode is required ~ by removing battery tray for 5 seconds, then place back in.

CAMO

USER MANUAL
ITEM #6556

INTRODUCTION

The **NIGHT COMMANDER BLOOD TRACKER CAMO** is a rugged 4-in-1 LED light featuring a 250 lumen white spot light and 3 unique colored flood lights ~ Blue, Red and Blood Tracker. It's unique design allows the light head to turn to a right angle with a simple twist, perfect for various working conditions. The magnetic base and steel clip provide convenient hands-free lighting.

LIGHTING INSTRUCTIONS

Press button 1x to activate spot light mode. Press 2x to activate Blue light mode. Press 3x to activate Red light mode. Press 4x to activate Blood Tracker light mode (Blue & Red). Press again to turn Off.

Note: Leave any mode On for 5 seconds or longer and the next press of the button turns light Off.

SPOT LIGHT - HIGH
250 lumens of white light
Run Time: 3.5 Hours
Viewing Distance: 113 Meters

SPOT LIGHT - LOW
45 lumens of white light
Run Time: 15 Hours
Viewing Distance: 51 Meters

BLUE
14 lumens
Run Time: 6 Hours
Viewing Distance: 7 Meters

RED
4 lumens
Run Time: 5.5 Hours
Viewing Distance: 2 Meters

BLOOD TRACKER
16 lumens
Run Time: 2.5 Hours
Viewing Distance: 7 Meters

DIMMING INSTRUCTIONS

Only the White Spot Light mode incorporates the dimming feature. While the light is on, in Spot Light Mode:

1. Press and hold the power button for 3 seconds. The light will blink 1x when the light reaches 10% or 100%.
2. Release the button at any time to obtain desired brightness. (NOTE: If button is still pressed, light will continue to dim and rise between 100% and 10%.)
3. To reset the light level, power off the flashlight and the **NIGHT COMMANDER BLOOD TRACKER CAMO** will reset the light mode back to 100% brightness when you turn it back on.

PROPRIETARY FEATURES

SHUT-OFF MEMORY: After each light mode remains ON for more than 5 seconds, the built-in memory enables the next press of the power button to shut the flashlight OFF, without the need to cycle through each light mode.

DIRECT ACCESS BLOOD TRACKER MODE: A unique function that allows direct access to the BLOOD TRACKER light mode without the need to cycle through all the light modes. With the light completely OFF, press and hold the power button until the BLOOD TRACKER light mode comes on (3 seconds). Then release the power button. Press power button again to shut off.

DIMMER RECALL (WHITE SPOT LIGHT MODE ONLY): From the OFF mode, by double clicking the power button, this feature will allow for quick access to the last dimmed mode prior to powering off. Alternatively, while light is OFF, click ONCE and it will turn ON at 100% brightness. This feature applies to white spot light mode only.

NOTE: If you remove/change the batteries, the DIMMING MEMORY will reset.

BATTERY INSTALLATION

1. To open battery compartment, unscrew (counter-clockwise) the end cap where the button and magnetic base are located.
2. Remove battery cartridge.
3. Remove old batteries and dispose of properly. Insert 4 new AAA alkaline batteries, making sure that the negative end (-) is facing the spring. Polarity markings are indicated on the battery tray to assist in proper polarity positions.
4. Reinsert battery cartridge into flashlight. Make sure battery cartridge is facing the correct direction, as illustrated below.
5. Reattach end cap by turning clockwise.
