

iPROTEC®

2022 CATALOG

iPROTEC®

Built to the most rigid specifications and featuring the latest in lighting technology, we're proud to offer our complete line of iPROTEC® branded firearm lights, lasers and accessories.

Designed for home security, hunting and shooting enthusiasts alike, we provide the peace of mind that comes with reliability, performance and value. Our unique technology and patented designs have easily set a new standard for the user's experience and have placed iPROTEC at the forefront of innovation. Our products are compact, easy to handle and lightweight, so they won't interfere with the balance and design of the firearm. Each product is expertly designed and meticulously crafted, so that you have the same assurance of quality and craftsmanship that you expect from your firearms and gear.

iPROTEC is a brand of Alliance Consumer Group, the parent company of NEBO, TRUE, Skeeter-Hawk, Quarrow & WeatherRite. Ever-changing and never compromising, we carefully take our products through the entire process – from concept, to manufacturing, to the end consumer. Our greatest reward is the satisfaction of millions of consumers who continue to buy and love our products.

LONG GUNS

LG110LR

SHOTGUN LIGHT/LASER COMBO

The LG110LR is a high-power shotgun light and laser combo emitting 110 lumens of intense white light. The four unique light & laser modes are controlled with the pressure switch or the standard end cap that is used for normal flashlight use. The LG110LR includes a universal mount or can be used as a standard flashlight.

LIGHT & LASER MODES

- LIGHT (110 lumens): 7.5 Hours / 50 Meters
- LASER (<5mW / 650nm): 47.5 Hours / 412 Meters
- LIGHT & LASER: 6.5 Hours / 50 Meters
- STROBE (110 lumens): 6.75 Hours / 50 Meters

DESIGN

- Tactical self-defense edge
- Anodized aircraft-grade aluminum; water and impact-resistant
- Fixed red laser

MOUNT

- Fits (20mm - 32.5mm) barrel and scope diameters
- Adjusts, tightens and locks without tools
- Patented accessory rail-mount (18mm x 24mm)

OPERATION

- Side-positioned button controls light and laser modes
- Standard end cap included for flashlight use
- Pressure switch uses momentary operation

ACCESSORIES

- Universal mount and pressure switch

BATTERIES

- 3 AAA batteries included

LG

LONG GUNS

UNIVERSAL LONG GUN MOUNT

The LG Universal Long Gun Mount with Accessory Rail System is constructed of aircraft-grade anodized aluminum. This self-locking mount uses an adjustable mount design to easily mount and lock to your long gun, no tools required. The side of the mount has an accessory rail mount to attach additional firearm accessories.

DESIGN

- Anodized aircraft-grade aluminum; water and impact-resistant
- Protective rubber inserts protect your gun and accessories when mounting

MOUNT

- Fits (20mm-32.5mm) flashlight, barrel, scope and magazine tube diameters
- Adjusts, tightens and locks without tools
- Patented accessory rail-mount (18mm x 24mm)

SPECS

- 0.316 lbs.
- (L) 2.75" x (W) 2.15625" x (D) 0.9375"

CASE PACK

4 PIECES

LG400

LONG GUN FIREARM LIGHT

Designed specifically for long guns, the LG400 features a high-power LED that emits 400 lumens of white light, or red light with the use of the red lens filter. The 3 light modes are controlled with the dual-mode pressure switch or the standard flashlight cap. The LG250 includes a universal mount or can be used as a standard flashlight.

LIGHT MODES

- HIGH (400 lumens): 2 Hours / 179 Meters
- LOW (40 lumens): 20 Hours / 57 Meters
- STROBE (400 lumens): 5 Hours / 179 Meters

DESIGN

- Tactical self-defense edge
- 6x adjustable zoom
- Convex lens evenly distributes and focuses the light beam
- Removable red flip-up lens filter
- Anodized aircraft-grade aluminum; water and impact-resistant

MOUNT

- Fits (20mm - 32.5mm) barrel and scope diameters
- Adjusts, tightens and locks without tools
- Patented accessory rail-mount (18mm x 24mm)

OPERATION

- Pressure switch uses momentary operation
- Side-positioned button controls light modes
- Standard end cap included for flashlight use

ACCESSORIES

- Universal mount, flip-up red lens filter and pressure switch

BATTERIES

- 3 AAA batteries included

SPECS

- (L) 4.5" x (W) 1.5 (Head) / (W) 1" (Barrel)

U.S. PATENT

- D657,840 & D659,869

Box Dimensions
(H) 9.75" x (W) 4" x (D) 3"

Red light is primarily used to preserve night vision in low-light or nighttime situations. The low-signature red light provides great contrast making it easier to read charts and maps. Police and military units utilize red light for night operations because it will not interfere with night vision technology and cannot be seen by the human eye over long distances. Fire rescue units also use red light because it provides better visibility in smoky situations than white light.

LG250

LONG GUN FIREARM LIGHT

The LG250 features a high-power LED that emits 250 lumens of green light. The 3 light modes are controlled with the dual-mode pressure switch or the standard flashlight cap. The LG250 includes a universal mount or can be used as a standard flashlight.

LIGHT MODES

- HIGH (250 lumens): 2 Hours / 141 Meters
- LOW (25 lumens): 20 Hours / 45 Meters
- STROBE (250 lumens): 8 Hours / 141 Meters

DESIGN

- Tactical self-defense edge
- 6x adjustable zoom
- Convex lens evenly distributes and focuses the light beam
- Anodized aircraft-grade aluminum; water and impact-resistant

MOUNT

- Fits (20mm - 32.5mm) barrel and scope diameters
- Adjusts, tightens and locks without tools
- Patented accessory rail-mount (18mm x 24mm)

OPERATION

- Pressure switch uses momentary operation
- Side-positioned button controls light modes
- Standard end cap included for flashlight use

ACCESSORIES

- Universal mount and pressure switch

RECHARGEABLE FIREARM LIGHT

Developed specifically for long distance lighting, the O² BEAM™ was engineered to outperform the best of the best. The rechargeable O² BEAM™ uses patented O² Technology™ to achieve a beam of light so impressive - you'll have to see it to believe.

LIGHT MODES

- HIGH (800 lumens): 2 Hours / 412 Meters
- LOW (80 lumens): 6 Hours / 130 Meters
- STROBE (800 lumens): 3 Hours / 412 Meters

DESIGN

- Tactical self-defense edge
- 6x adjustable zoom
- O² Technology™
- Convex lens evenly distributes and focuses the light beam
- Anodized aircraft-grade aluminum; water and impact-resistant

MOUNT

- Fits (20mm - 32.5mm) barrel and scope diameters
- Adjusts, tightens and locks without tools
- Patented accessory rail-mount (18mm x 24mm)

OPERATION

- Pressure switch controls momentary and steady operation
- Standard end cap included for flashlight use
- Pressure switch and end cap both feature an instant strobe side button

ACCESSORIES

- Universal mount, dual-mode pressure switch and Mag-Dock USB charging cable

BATTERY

- 18650 Li-ion rechargeable battery included

RAIL-MOUNT

RAIL-MOUNT FIREARM LASER

The RMLSR uses a 5-milliwatt, 650 nanometer laser to sight up to 412 meters away. The laser is controlled by the standard cap for use with a hand gun, or by the pressure switch for use with a long gun.

LASER MODE

- RED LASER SIGHT (<5mW, 650nm): 4 Hours / 412 Meters

DESIGN

- Anodized aircraft-grade aluminum; water and impact-resistant
- Anti-recoil locking

MOUNT

- Adjustable hinge mount design; no tools required
- For rail-equipped subcompacts, pistols and long guns
- Patented accessory rail-mount (18mm x 24mm)

OPERATION

- Pressure switch uses momentary operation for use with a long gun
- Standard end cap for use with a hand gun
- Standard end cap features a side-positioned ON/OFF switch

ACCESSORIES

- Mounting Allen Wrench, Laser adjustment Allen Wrench and pressure switch

BATTERY

RM160LSR

RAIL-MOUNT FIREARM LIGHT/LASER

The RM160LSR features a high-power LED that outputs 160 lumens of intense white light and a red laser sight. Light of this magnitude is enough to dominate an aggressor's night-adapted vision; ideal for military, law enforcement and self-defense.

LIGHT MODES

- ON (160 lumens): 1.5 hours / 98 meters
- STROBE (160 lumens): 1.5 hours / 98 meters

DESIGN

- Anodized aircraft-grade aluminum; water and impact-resistant
- Removable flip-up red lens filter
- Independently controlled adjustable red laser (<5mW / 650nm)

MOUNT

- Adjustable mount design
- For rail-equipped pistols and long guns; does not fit subcompacts

OPERATION

- Two pressure switches for light and laser; both use momentary operation
- Two standard end caps included for use without pressure switches

ACCESSORIES

- Mounting Allen Wrench, laser adjustment Allen Wrench, flip-up red lens filter and 2 pressure switches for light and laser

BATTERIES

- 1 CR123A battery included for light;
- 3 LR44 batteries included for laser

RM400LSR

RECHARGEABLE FIREARM LIGHT & LASER

The RM400LSR is a rechargeable light and laser combo designed specifically for rail-mount equipped firearms. The RM400LSR features 400 lumens of green light, 6x adjustable zoom and a sightable red laser. The 3 green light modes are controlled with the dual-mode pressure switch or the standard flashlight end cap. The RM400LSR uses a patented universal rail mount with an added rail-mount for attaching additional accessories.

LIGHT MODES

- HIGH (400 lumens): 4 Hours / 219 Meters
- LOW (40 lumens): 12 Hours / 85 Meters
- STROBE (400 lumens): 3 Hours / 219 Meters

DESIGN

- Mag-Dock USB rechargeable
- Sightable red laser
- Tactical self-defense edge
- 6x adjustable zoom
- Anodized aircraft-grade aluminum; water and impact-resistant

MOUNT

- Fits barrel and scopes (20mm - 32.5mm)
- Adjusts, tightens and locks without tools
- Patented accessory rail-mount (18mm x 24mm)

OPERATION

- Pressure switch controls momentary and steady operation
- Standard end cap included for flashlight use
- Side-positioned instant strobe side button; rear-positioned power button

CHAMELEON II

COLOR-CHANGING FLASHLIGHT

MULTI-USE LIGHTING

The CHAMELEON II has a high-power, color-changing LED that outputs white, green and red light. Soft Touch Technology allows you to easily cycle through the four impressive light modes and the 4x zoom easily adjusts from spot light to flood light. The CHAMELEON II is also equipped with a steel clip and powerful magnetic base for convenient hands-free use.

LIGHT MODES

- WHITE (150 lumens): 5 Hours / 97 Meters
- GREEN (65 lumens): 10 Hours / 60 Meters
- RED (15 lumens): 24 Hours / 28 Meters
- STROBE (150 lumens): 5 Hours / 97 Meters

DESIGN

- Color-changing LED (White, Green, Red)
- Anodized aircraft-grade aluminum; water and impact-resistant
- Steel belt/pocket clip
- Powerful magnetic base

OPERATION

- Rear-positioned ON/OFF button

BATTERIES

- 3 AAA batteries included

SPECS

- 0.5 lbs.
- (H) 5.12" x (W) 1.5"

Actual Size

Red light and Green light both have numerous advantages for preserving night vision. While both are useful for some of the same applications, the task at hand will be the primary deciding factor for which color is most suitable.
