**QUALITY GUARANTEE**

This product is guaranteed against all defects in workmanship and materials for the original owner for one year from the date of purchase. Damage to or failure of the flashlight or any component thereof due to alteration, misuse, battery leakage or lack of maintenance will void any and all guarantees. Damage by leakage of batteries should be taken up with the manufacturer of the battery using their damage claim instructions. For any additional information call 1-800-255-6061.

**WARNING**

**AVOID EYE INJURY**-Do not stare directly into beam or shine it directly into anyone's face. Doing so for more than a few seconds could cause retinal damage. Do not allow children to use LED lights unless under the supervision of an adult.

**CAUTION**

Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (NiCad or NiMH) batteries. Do not use rechargeable or reusable alkaline batteries. Dispose of old batteries properly.

## FLASHLIGHT OPERATING INSTRUCTION

The **REDLINE® 6K** is a 6000 lumen, waterproof (IP67), rechargeable flashlight that features 4x adjustable zoom and New Optimized C-O-B™ housed inside of an aircraft-grade anodized aluminum body with 4 light modes.

- **HIGH**  
Press button 1x to activate
- **MEDIUM**  
From the previous mode, press button 1x
- **LOW**  
From the previous mode, press button 1x
- **STROBE**  
Double-tap button to activate.  
Strobe changes the frequency of the strobe pattern

## LIGHT MODES & PERFORMANCE

**HIGH** - 6,000 Lumens  
2 Hours  
219 Meters

**MEDIUM** - 1,200 Lumens  
5 Hours  
98 Meters

**LOW** - 60 Lumens  
50 Hours  
69 Meters

**STROBE** - 6,000 Lumens  
3 Hours  
219 Meters

## 4X ZOOM

Turn the head clockwise for flood light, perfect for short range illumination. Turn the head counter-clockwise for spot-light to focus light up to 200 meters.

## FLOOD LIGHT

## SPOT LIGHT

## DIRECT-TO-LOW

Due to the extreme brightness of 6000 lumens, the **REDLINE® 6K** is equipped with a Direct-to-Low feature. Click and hold the button for 2 seconds to activate Low Mode (60 lumens) first. Press button again for MEDIUM and once again for HIGH.

After light has been turned OFF, the **REDLINE® 6K** will default to the normal light cycle: HIGH - MEDIUM - LOW

## GLOW-IN-THE-DARK REFLECTOR

An internal glow-in-the-dark component located behind the lens provides a secondary light source, without using any battery life.

This glow-in-the-dark component recharges when the **REDLINE® 6K** is on and with natural light. A 10 second charge will provide up to 2 minutes of illumination from the glow-in-the-dark. This low signature light source ensures stealth and preserves night vision.

## RECHARGING

Remove the charging port cover to access the Micro-USB and USB charging ports, as shown below.

Use the included Micro-USB charging cable to charge your **REDLINE® 6K** - with the micro-USB end of the cable into the flashlight's Micro-USB input and the USB into any available USB port.

USB PORT  
TO CHARGE  
USB DEVICES

MICRO-USB PORT  
FOR CHARGING  
REDLINE® 6K

NOTE: for fastest charging for the **REDLINE® 6K**, a 2A USB is recommended. Charging time will vary, from 5 to 20 hours, depending on the output of the USB.

## POWER BANK

Remove the charging port cover to access the Micro-USB and USB charging ports, as shown above.

Using the included charging cable, plug the USB end into the USB port and the Micro-USB end into the Micro-USB device. You can also use other cables (not included) to charge non-Micro-USB devices.

## LED BACKLIT - POWER BANK STATUS

The power button will light up **GREEN** to indicate that the Power bank feature is actively and successfully charging your device(s)

## LED BACKLIT - BATTERY CHARGING STATUS

- The button will glow **RED** while charging
- The button will glow **GREEN** when fully charged.

When the **REDLINE® 6K** is first turned on, the battery indicator will light momentarily to indicate charge level. RED indicates 25% battery power or less.

## CHARGING

## READY

## OPTIMIZED COB™

NEBO's patent-pending Optimized COB technology enables industry-leading brightness and zoom capability for hand-held flashlights.

## FEATURING NEW

**SMART POWER CONTROL** reduces the instantaneous light output by gradually increasing the brightness when turning the light ON or transitioning between light modes. This reduces power consumption, helps expand battery life and allows the user's eyesight to adjust easier, as the light intensifies.

The **REDLINE® 6K** is waterproof (IP67 Rated) and fully submersible 1 meter deep for up to 30 minutes.
