Submersible Fishing Lights

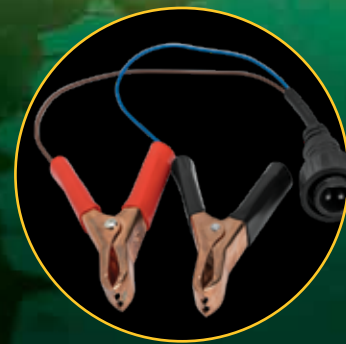

The Quarrow 1600 Lumen Submersible Fishing Light shines an even, bright green light directly into the water. This light features a unique water-cooled design that transfers heat from the LEDs to the surrounding water through the exposed core of the light. This improves efficiency and keeps the LEDs cool for maximum output and LED lifespan.

WHY GREEN LIGHT?

The Quarrow® Submersible Fishing Light shines a bright green light directly into the water. The green light starts a natural food-chain reaction by attracting a concentration of small microscopic animals called plankton. Bait fish such as shad and minnows are drawn to the light to feed on the plankton and larger game fish move in to feed on the bait fish.

INTERCHANGEABLE POWER ADAPTERS

12V ALLIGATOR CLIP ADAPTER

DC 12V ADAPTER

LIGHT

- 252 LEDs output 1600 lumens

DESIGN

- Impact-resistant and waterproof
- Rugged ABS plastic and aluminum
