## ezEX44® RJ45 Connector

The ezEX44 RJ45 connectors feature a unique integrated Hi-Lo stagger load bar that allow 'big' conductors to pass through the front end of the connector making it easy to verify the wiring sequence before terminating.

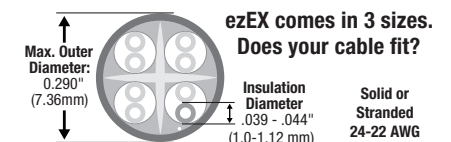

- Simple one piece/pass through design, with no bars or liners
- Cat5e/6/6A compliant
- Made in the USA!

### ezEX®44 Instructions

1. Strip 2" off the cable jacket.
2. Straighten wires, place in proper sequence.
3. Insert into connector (conductors will extend in a staggered format out the front).
4. Verify wiring sequence.
5. Make sure cable is fully seated inside the connector.
6. Crimp with the EXO Crimp Frame + EXO-EX Die.
7. Remove any remaining debris.

TIA, TAA, RoHS 2, UL & FCC compliant

Find the right connector for  
any cable at [www.platinumtools.com](http://www.platinumtools.com)

**Must terminate with EXO Crimp Frame  
+ EXO-EX Die, P/N 100061C**
