

INSPECTOR™ 500+

This 500 lumen, USB rechargeable pen light features a unique hidden Area Light. Flex Power allows for the use of 2x AAA batteries (not included).

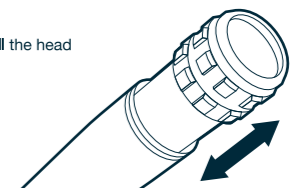

OPERATION

Power button cycles through light modes when pressed. **High > Low.** Double-tap button for **Strobe** mode. When the unit is **Off**, press and hold the power button to go **Direct-To-Low**. When the unit is **On**, press and hold the power button for **Turbo** mode.

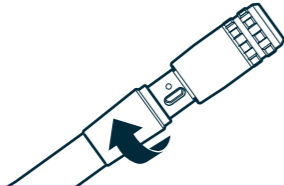

AREA LIGHT

To deploy the Area Light, pull the head away from the body.

RECHARGEABLE

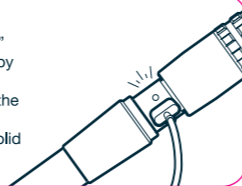

To access the charging port, hold the body and rotate the collar clockwise down/away from the lens. Insert the USB cable into the charging port.

CHARGE INDICATOR

This product includes a "Charge Status" LED indicator during charging (located by the charge port):

- When plugged in and the light is **red**, the battery is charging.
- When plugged in and the light turns solid **blue**, the battery level is at 100%.

FLEX POWER

This unit can also be powered by two AAA batteries.

- Unscrew the battery cap.
- Remove the rechargeable batteries.
- Insert two AAA batteries positive (+) side first.
- Reinstall the battery cap.

This product is guaranteed against all defects in workmanship and materials for the original owner for one year from the date of purchase. For more information, detailed video instructions, and warranty registration, visit NEBOLIGHTS.com.
