▲ WARNING!

These gloves can reduce the risk of mechanical risks caused by abrasion, blade cut, puncture, and tearing when worn properly. Follow warnings. Misuse or failure to wear hand protection at all times may result in serious personal injury. Contaminated and worn gloves may fail to protect hands. Effective protection is maintained by regular replacement of gloves. Check the condition of the gloves, inside and out. Do not expose to open flame. Gloves are not flameproof. Do not use when working on electrical circuits. Do not use when there is a risk of entanglement or near moving machinery. Gloves are cut resistant but are not puncture-proof. Do not subject to high-speed or serrated blades.

IMPORTANT NOTICE

Before using this product, you must evaluate it and determine if it is suitable for your intended application. You assume all risks and liability associated with such use.
